## ADVANCE ORDERED BY KOUROPATKIN.

*Brigade of Infantry and Five Thousand Cossacks Near the Tumen.*

Japanese are Reported Moving by Water from Korea and a Landing Near Takushan is Expected—Great Difficulty in Doing so is Predicted—Port Arthur is Again Blocked.

(BY THE ASSOCIATED PRESS—P.M.)

PARIS, April 22.—[By Atlantic Cable.]—The St. Petersburg correspondent of the Petit Parisien says he has learned that Gen. Kouropatkin has ordered the advance of the Russian forces which are massed in Northeastern Korea, and that a brigade of infantry with 5000 Cossacks is within a hundred versts of the banks of the Tumen River.

REACHING A CULMINATION.

(BY THE ASSOCIATED PRESS—P.M.)

LONDON, April 22.—The Tokio correspondent of the Daily Telegraph says: Port Arthur undoubtedly is effectively blocked, and events are culminating around the doomed fortress.

TOLD BY A MESSENGER.

(BY THE ASSOCIATED PRESS—P.M.)

LONDON, April 22.—A correspondent of the Times, cabling from Newchwang, says that a messenger has arrived there from the Yalu River with the information that the Russians are fleeing north across the river in overcrowded boats, and are losing hundreds of drowning.

JAPS MOVING BY WATER.

(BY THE ASSOCIATED PRESS—P.M.)

LONDON, April 22.—The correspondent of the Standard at Tien-Tsin says that Japanese troops are now embarking from Korea, and possibly are being reinforced by the forces on the Yalu River, from which the Russians have practically withdrawn.

PLANS OF THE OPPONENTS.

(BY THE ASSOCIATED PRESS—P.M.)

ST. PETERSBURG, April 21.—The Admiralty, it is announced, intends to fit out two ships purchased from Germany which formerly were in the trans-Atlantic service, together with a number of ships of the volunteer fleet with auxiliary arms and send them to the Pacific to prey upon Japanese shipping.

Admiralty believes that by this means it can prevent the resumption of operations by the Japanese commercial fleet and strike a hard blow against Japan's hope of maintaining her resources for the prosecution of the war.

It is authoritatively stated that Russia has been offered, through a well-known New York firm, two 7000-ton, and two 6000-ton cruisers belonging to a South American country, but declined the offer.

SKRYDLOFF'S PLANS.

In order to harmonize the army and navy operations, Vice-Admiral Skrydloff will stop at Liao Yang on his way to Port Arthur, to confer with Gen. Kouropatkin. The admiral and the general are warm personal friends, and both are completely independent of the Viceroy. In spite of the bad relations between Skrydloff and Alexieff, pressure is being brought to bear to prevent the Viceroy's immediate return to the Russian capital.

All information in possession of the General Staff indicates that the Japanese are preparing to make a landing near Takushan. The lights of Japanese ships have been observed there for several nights, and it is believed that the debarkation of troops has been delayed only by bad weather, which has prevented the assembling of the junks and other small craft on which the troops must be carried across the stretch of shallow water which extends several miles from the shore. It is believed that the Japanese will experience great difficulty in debarking, if their landing is resisted.

A prominent naval attache who is familiar with the coast says a battalion with rapid-fire and machine guns could keep off an army corps, as the warships would then have to lie too far out to effectively protect a landing.

CAUSED RUSSIANS TO RETIRE.

(BY DIRECT WIRE TO THE TIMES)

SEOUL April 21.—[Exclusive Dispatch.] Strong rumors are current here of a land engagement yesterday near the mouth of the Yalu, the result of which is unknown. Russian scouts reached Puk Chong, a hundred miles north of Wonson, evidently with the idea of making a demonstration against the latter place, hoping to draw the Japanese force in that direction, but a superior Japanese force met the Russians and caused them to retire. Both armies are using the same tactics on the eastern, as on the western front.

Only sixty Russian cavalry reached Song Ching. Appearance of the Russians in that region is of no consequence to the Japanese, who seem purposely to ignore the northeastern mountainous district. The Russian cavalry, after burning Japanese houses at Song Ching, occupying the Korean telegraph office and causing trouble among the natives by their demands for provisions, proceeded to Puk Chong, about sixty-five miles to the south.

NEWCHWANG REPORTED BOMBARDED.

(BY DIRECT WIRE TO THE TIMES)

ST. PETERSBURG, April 24.—[Exclusive Dispatch.] The Japanese are reported to have bombed Newchwang and to have landed troops, who will probably endeavor to effect a junction with the forces supposed to have landed near the mouth of the Yalu River three days ago.

MARTIAL LAW AT YINKOW.

(BY THE ASSOCIATED PRESS—A.M.)

NEWCHWANG, April 21.—Viceroy Alexieff has issued an important order declaring the "Yinkow" railroad station and the

native village adjoining it to be within the region under martial law. The station is opposite Newchwang, and it is a terminus of the Peking-Shan Haikwan railroad and telegraph system. The order also establishes a censorship over all telegrams, the scrutiny of passengers, and the inspection of their baggage. It will go into effect tomorrow.

## DISGUISED JAPS ARE NUMEROUS

shook with emotion as he said: "I beg an opportunity to explain and ask a question of the chairman before I proceed. Nineteen years ago, I was brought into great trouble. I was prosecuted and sent to prison because I acknowledged the mothers of my children as my families. I was given the opportunity of deserting my families, or going to prison. I went to prison."

"I was sent to prison for eight months, and served six months when the Supreme Court took up my case and I was released. While I was in prison, I said to my associates who called to see me: 'You could not come here in honor; you could not stay in honor.' For a long time I have lived within the law, as far as it was possible to do so in the face of obligations to my families. I have not paraded my families, but in honest pride I have nourished them."

"The press of the country has caricatured President Smith for the testimony he gave in regard to the plural families, and if I am asked to make similar exhibitions of my family, I appeal for protection from any consequences that may be the result of the testimony. I will answer all questions in regard to myself or the church, if I am assured that I will not be placed in peril by reason of the testimony."

Cannon sat down, quivering with ill-suppressed emotion, and Worthington asked: "Mr. Cannon, have you any counsel?"

"No, sir."

Worthington submitted to the chairman that the witness should be informed as to his rights and as to his liberty should he answer questions which might incriminate him.

Chairman Burrows said the witness was at liberty to decline to answer any question, but Worthington insisted that the "counsel" must be based on the ground that the witness feared to incriminate himself.

The official reporter then read the question: "To whom were you next married?"

"Anna Amanda Mousley."

"When were you married to her?" asked Taylor.

"At the same hour that I was married to Sarah Maria Mousley."

"By the same ceremony?"

"Yes."

"To whom were you next married?"

"Mrs. Mason in 1875," replied Mr. Cannon, also saying he was married to Martha Hughes in 1884, and Maria Banning in 1886, and Johanna C. Donnelson in 1886, and that he had not been married since that time. All his wives were living. He said that they all lived in Salt Lake county, but in separate houses; that he had families by five of his wives.

"Do you live with all of your wives now?" Taylor asked.

"I am sorry to say that I do not."

"Why? Because you are now in Washington and cannot be living with them?"

"No. Because of an agreement made by the church which compels me to be as modest as I can. I have only been as attentive as I felt common humanity required me to be."

"What do you mean by that?"

"I mean that this church order has made me more cold in my treatment of them than I should be."

Again and again the witness evaded questions relating to the character of the obligations taken in the Endowment House, and finally said that "God had made it known that the sacred covenants should not be spoken of to the world."

In answer to Senator Overman, Cannon and the "Twelve Apostles" had taken the endowment oath.

Great interest was manifested by members of the committee concerning the character of the Endowment House marriage ceremonies, but little could be obtained from Cannon. When pressed too closely, he answered that he could not remember.

The committee adjourned until tomorrow.

**WAR TAXES ON LEGACIES.**

**LOOPOLE FOR REFUNDING.**

**DIRECT WIRE TO THE TIMES.**

**WASHINGTON, April 21.—[Exclusive Dispatch.]** Lawyers will do well to search the files of the office of the register of wills for legacies that paid Spanish war taxes. If the claim that was presented to Commissioner Yerkes today is allowed, a St. Louis attorney thinks he has discovered a loophole in the act passed June 27, 1902, through which he can pull out of the treasury about \$50,000 levied on his clients in the shape of war taxes on legacies. That act provides for refunding all Spanish war taxes paid upon continental beneficent interests. In other words, if a legacy had been left in trust with a trust company, or with a trustee, and if it were a contingent legacy, the taxes paid under Spanish war internal revenue law could be recovered.

Using this act as an inspiration, the St. Louis attorney waded through the records of the register of wills in that city and found a number of cases which, he thinks, come under this particular provision of the act of 1902. He appeared before Internal Revenue Commissioners and demanded the refunding of about \$50,000 in taxes collected on contingent legacies.

Commissioner Yerkes and the solicitor of the department listened to the arguments of the St. Louis man and agreed to take the matter under consideration.

**PENSION BILL PASSED.**

**ALSO HARBOR APPROPRIATIONS.**

**[BY THE ASSOCIATED PRESS—P.M.]**

**WASHINGTON, April 21.—**The Pension Appropriation Bill, carrying an appropriation of over \$127,000,000, and the Emergency River and Harbor Appropriation Bill, which carries \$3,000,000, was passed today by the Senate, leaving only the General Deficiency and the Military bills of the entire list of supply measures Bill to be considered by the Senate.

While the River and Harbor measure was under consideration, Mr. Cannon sharply criticized the failure to bring in a general river and harbor bill.

**EMBASSY OF GERMANY.**

**Goes to Lenox, Mass.**

**[BY THE ASSOCIATED PRESS—A.M.]**

**WASHINGTON, April 21.—**The German Embassy will be established at Lenox, Mass., for the summer, and the Ambassador will raise the Embassy flag there early in June. The Ambassador expects to remain there until October. He will return to Washington early in that month to complete arrangements for the unveiling of the

statue of Frederick the Great at the Army War College, October 21.

It is probable that Sir Henry Mortier Durand, the British Ambassador, will establish the British Embassy at Lenox for the summer, but he will not leave Washington until late in June.

The Russian Ambassador and the Countess Cassini, with the Embassy staff, will transfer the embassy to Bar Harbor, Me., for the entire summer.

The French Ambassador, M. Jusserand, will spend the summer in France, and the Embassy probably will be transferred to Manchester by the Sea, with the first secretary in charge.

Private advice received at the Italian Embassy says that the Italian Ambassador and Signorina D'Amatochies will return to this country in June, but the locality of the Embassy for the summer has not been settled upon.

### THE CONGRESS.

#### REGULAR SESSION.

**[BY THE ASSOCIATED PRESS—A.M.]**

**WASHINGTON, April 21.—SENATE.**

The Senate today passed a bill amending the bill granting a charter to the General Federation of Women's Clubs, so as to give the organization the privilege of holding biennial meetings outside of Washington.

The Senate also passed the Pensions Appropriation Bill, carrying

the same amount as the Senate.

The Emergency River and Harbor Appropriation Bill was taken up at this point. Mr. Gorman asked why no general river and harbor bill was to be introduced. Mr. Elkins, in charge of the bill, replied that the judgment of the Committee on Commerce, which had reported the bill, had been that a general river and harbor bill could not be passed, and that the Senate should not pass it.

A court-martial held at Harbin, April 29, found them guilty, while belonging to the Japanese army, of operating against Russia, and, in order to gain success for their army, of destroying or damaging telegraph and railway communication by means of pyroxylia and other accessories provided for that purpose, and making their way into Manchuria secretly, where they were arrested by Russian

courts martial.

**PENSION BILL READ.**

**[BY THE ASSOCIATED PRESS—P.M.]**

**WASHINGTON, April 21.—**The Pension Bill was then read. Mr. McCumber expressed the opinion that the time had approached for the enactment of a general river and harbor bill.

The Emergency River and Harbor Appropriation Bill was taken up at this point. Mr. Gorman asked why no general river and harbor bill was to be introduced. **BILLS TO AID ALASKA.**

**WASHINGTON, April 21.—**The House Committee on Territories today authorized favorable reports on three bills affecting Alaska. These measures were a Senate bill providing that Alaska shall have a seat and upwards of one-half a pound of pyroxylia, good maps of Mongolia, Manchuria, and Northern Korea and a number of notes.

national prosecutions for alleged election fraud.

Mr. Myers of Indiana declared that the resolution should not be adopted while it contained the statement that the exhibit established the fact that "gross frauds were committed" thus convicting the accused persons before the trial.

Mr. Bonynge said there was a crying necessity for the exhibits in that State before the grand jury now in session in Indiana.

The resolution was agreed to without division.

At 5:30 o'clock the House adjourned.

### WASHINGTON NOTES.

#### Gov. Hunt's Official Term.

**WASHINGTON, April 21.—**Gov. Hunt of Porto Rico had another conference with the President today regarding affairs on the island. The President will remain in Porto Rico until the end of the present fiscal year, June 30 next. He will not qualify, therefore, as United States District Judge of Monroe in succession to Judge Hiram Knowles until some time after that date.

**Bills to Aid Alaska.**

**WASHINGTON, April 21.—**The House Committee on Territories today authorized favorable reports on three bills affecting Alaska. These measures were a Senate bill providing that Alaska shall have a seat and upwards of one-half a pound of pyroxylia, good maps of Mongolia, Manchuria, and Northern Korea and a number of notes.

"All was quiet on the Yalu on the 19th and 20th, and there has been no change.

"On the night of the 19th, opposite Cape Tower Hill, west of Kai Chigu, a steamer was observed sending off boats, evidently for the purpose of taking soundings. The boats soon returned."

In another telegram to the Emperor, Gen. Kouroupatkin says:

"I respectfully report to Your Majesty that two Japanese officers named Stevo Yoko and Gisaka Oki, were arrested near the station of Tur Chi Khi.

In their possession were found three cases of Blodkiss fuse, a French

wrench dynamite cartridges, tools for

## THE FAR EAST.

(Continued from First Page.)

lost his life at the time of the Petropavlovsk disaster. All hope is given up of the recovery of the body of Vice-Admiral Makaroff. The official reports place 86 as the number of persons saved from the Petropavlovsk.

BODY WASHED ASHORE.

(BY THE ASSOCIATED PRESS—P.M.)

PARIS, April 21.—The St. Petersburg correspondent of the Echo de Paris says: Prince Shemeshoff was telegraphed to his mother from Port Arthur that the body of Rear-Admiral Molos; Vice-Admiral Makaroff's chief of staff, has been washed ashore, frightfully mutilated by the explosion which sunk the Petropavlovsk, and that Vice-Admiral Makaroff's body has not yet been found.

ALEXIEFF DIDN'T OBJECT.

(BY THE ASSOCIATED PRESS—P.M.)

TIENTSIN, April 21.—The St. Petersburg correspondent of the Echo de Paris says that notwithstanding the enmity between Viceroy Alexieff and Vice-Admiral Makaroff, the Viceroy did not object to the appointment of the latter to the command of the naval forces in the Far East, recognizing that it was unavoidable.

MAKAROFF'S SISTER DREAMS.

(BY THE ASSOCIATED PRESS—P.M.)

ST. PETERSBURG, April 21.—Vice-Admiral Makaroff's sister, a widow, who has long been a resident of Kishinev, was dependent upon an allowance made by the admiral for her support. She is heart-broken, refusing to believe that her brother is dead, and dreams that he comes to her saying that he is alive and imprisoned in his stateroom on the Petropavlovsk.

BITTERNESS IN MANCHURIA.

AMERICANS UNJUSTLY ACCUSED.

(BY THE ASSOCIATED PRESS—A.M.)

BERLIN, April 21.—[By Atlantic Cable.] The correspondent of the Frankfurter Zeitung, writing from Manchuria, under date of March 16, says:

"Great bitterness has been aroused throughout Manchuria against Americans and British, because it is believed American and British vessels took part in the bombardments of Port Arthur under the Japanese flag. This belief apparently is due to the fact that the Japanese fleet was larger than the Russians anticipated, and included unknown types of vessels."

"The feeling is so strong that Americans and British are not safe anywhere in Manchuria. One Railley, an American, and several others, including Davidson, a Canadian, have disappeared. The authorities are looking for them."

"It is reported that an Englishman was arrested in Port Arthur as a spy, and was taken to Mukden and hung."

"The plying of the so-called 'flower boats' on the Liao River, mostly under the American flag and carrying American goods, has been prohibited. Southern Manchuria has been secured for several months for supplies of flour destined for Port Arthur, which is reported to be provisioned for two years."

NEW ISSUE OF \$15,000,000.

(BY THE ASSOCIATED PRESS—A.M.)

ST. PETERSBURG, April 21, 2:25 p.m.—[By Atlantic Cable.] Russia has made a new issue of \$15,000,000 in paper currency against free gold in the State Bank. At the Ministry of Finance, it was explained that it was an ordinary issue and in no sense forced. Under the law, paper is issuable to double the amount of gold up to \$150,000,000 gold, in excess of which paper issue must be covered, double for rouble. In the State Bank there are, in round figures, \$400,000,000 in gold, which would permit of an issue of \$550,000,000 in paper, but the paper issue at present only amounts to \$350,000,000.

The correspondent of the Associated Press is authentically informed that the daily expenses of the war are averaging \$750,000, and it is estimated that a year's expenditures for the war will total \$250,000.

To meet this, there existed a free balance of \$50,000,000, which was increased to \$115,000,000 by reductions in the ordinary budget, leaving astenably \$135,000,000 to be found. But a portion of the latter is made up by the increased earnings of the railroads owned by the government. It being in reality a question of book-keeping, how the balance is to be raised has not yet been determined. No foreign loan has been arranged and none is desired, if it can be avoided, as practically the total of war expenditures will be raised at home. The Ministry of Finance believes it may be easy to float an internal loan late in the summer or fall.

Marine Minister Avellan has received the following telegram from Gen. Koutoukian: "I mentally entreat you, dear Theodore Carolyich, knowing the grief and anxiety you are suffering. The army finds consolation in the firm conviction that our illustrious seamen will retrieve their honor at the expense of the Japanese host."

NOTES FROM NEWCHWANG.

PILOTS HELD RESPONSIBLE.

(BY THE ASSOCIATED PRESS—A.M.)

NEWCHWANG, April 21.—[By Atlantic Cable.] An order issued by the Russian military authorities through the commissioner of customs here, notifying the pilots of Newchwang that any pilot who gave assistance to any Japanese ship in the water leading to Newchwang would be held responsible to the full extent of martial law, has been made a subject of inquiry of the authorities by three of the foreign consuls here with regard to the exact meaning of words "to the full extent of martial law."

To these inquiries, the Russian authorities replied that the assisting of Japanese ships in the waters mentioned would subject the offending pilots to the same treatment given Russian subjects and traitors, based upon the fact that the Russian authorities have declared Newchwang to be under martial law.

In their reply to the consuls, the authorities affirmed further than on

## WAR BULLETINS FROM MANY POINTS.

(BY THE ASSOCIATED PRESS—P.M.)

S. PETERSBURG, April 22.—[Exclusive Dispatch.] In a long official dispatch to the Czar, Gen. Kouroupatkin says that an attempt to blow up the Chinese Eastern Railway across the Tui River was narrowly averted last week, and that the vigilance of three officers of the First Siberian Rifle Brigade caused the capture of two Japanese officers, who have since been killed under forms of military law.

JAPS WITH GUN COTTON.

(BY THE ASSOCIATED PRESS—P.M.)

TIENTSIN, April 21.—The St. Petersburg correspondent of the Echo de Paris says that the two Japanese officers captured recently disguised as Lamas, with 300 pounds of gun cotton in their possession, by the Russian authorities at Harbin, and closed with attempting to destroy the Nanjing bridge, have been conveyed to Port Arthur for examination as to how they procured Chinese passports. They will afterward be dealt with according to martial law.

the other hand, pilots could be compelled to pilot Russian vessels or forced to land Newchwang. The Russian authorities hold that under the existing martial law, foreigners are upon the same status as Russian subjects, but the foreign consuls aver that foreign residents of Newchwang who might assist the Japanese can be held responsible for the acts only as belligerents, and cannot be regarded as Russian subjects.

The correspondent of the Associated Press obtained the approval of the Russian censor before sending this message, although at the present time such approval is not necessary.

FRENCH GENERAL'S VIEWS.  
ARMIES IN EXPECTANT STATE.

(BY DIRECT WIRE TO THE TIMES)

NEW YORK, April 21.—[Exclusive Dispatch.] The Herald publishes the following from its military expert, a celebrated general of the French army. He writes:

"The armies seem at the present moment to be in a state of expectancy. One feels on either part how great a responsibility will be incurred by the commander of that army which marches before the other. Advanced posts are stationed in the islands of the Yalu and only a few hundred yards apart from each other, and frequent movements are made on land.

"On both sides, the Japanese are concentrating at a little distance from the river, while the Russians, supported in the rear by imposing forces, are watching their bank carefully, and their scouts are signaling that Japanese vessels are cruising some leagues from the coast, between Tong Yang and Ta Tung Kao.

"Generally speaking, on the Yalu it may be noticed that the Coasacks toward the east remain always in a threatening attitude for the right flank of the enemy. It is reported from Won Son that this cavalry, supported by some infantry, has established itself at Pong Cheng. It can advance rapidly from this point by the Ting Peng, a confluence from Yung Hing and from Tek Tching, and thence convey itself to a bold raid either toward Anju or toward Ping Yang.

"Everything depends on the importance of this body of troops, but it is rather probable that it is the only force to be taken into account for the moment, as it will operate at so great a distance from its base.

"As for troops of disembarkation, it is to be remembered that every instant they are signaled on the various coasts. Sometimes it is seven miles to the north of Dalny that the Japanese have succeeded in landing, and at others, it is a large flotilla of transports escorted by ships of war which directed itself toward the Gulf of Liao Tung.

"This news it is difficult to master, but as the sea is now free from Admiral Togo, it is more and more probable that before long, an important demonstration will be made on land by the Japanese army, either on the Peninsula of Kwang Tung or in the Gulf of Liao Tung, unless Gen. Kousaki has given up crossing the Yalu for marching directly upon Liao Yang and Mukden, which seems little reconcilable with the present excessive excitement of public opinion in Japan.

WANT TURKISH WARSHIPS.  
RUSSIA AFTER THE MEDJIDIA.

(BY DIRECT WIRE TO THE TIMES)

WASHINGTON, April 21.—[Exclusive Dispatch.] State Department officials say that Russia is trying to secure the armored cruiser Medjidia, which was recently built by the Cramps for the Turkish navy and which is now on her way to Constantinople, with an American crew, to be turned over formally to the Sultan.

A press dispatch from St. Petersburg yesterday stated that it was believed there that the Russian Minister to Turkey and Gen. Williams, the general representative of the Cramps, were negotiating at Constantinople for the purchase of several ships by Russia. A dispatch today from Constantinople says that the Russian Minister is pressing the Sultan for an immediate payment of claims growing out of the war of 1877 and for outrages on Russians since then.

These dispatches have aroused the suspicion that Russia is paving the way to accept payment of claims in Turkish warships, including first of all the Medjidia. It is thought that the warships would just now be welcome to Russia than money.

## NORTHERN SECURITIES AND PRO RATA PLAN.

(BY THE ASSOCIATED PRESS—A.M.)

N EW YORK, April 21.—At the Northern Securities meeting to-day 2,944,740 shares were voted in favor of the distribution plan and none against it. The total number of shares issued by the company was 8,950,000.

The stockholders of the Northern Securities Company held a special meeting in Hoboken, N. J., today to vote on the proposed pro rata plan of distribution of assets, as recommended by the directors. Officials who were present included President J. J. Hill, with the four vice-president and general counsel, W. P. Clough, Secretary Nichols and Director Nicholas Thompson. Other present included Winslow S. Pierce and R. S. Lovett, the legal representatives of the Harriman interests. Less than half dozen stockholders attended the meeting.

"In the guise of merchants, beggars, rag-pickers and lackeys," says the general, "these spies sniff everywhere. They have grown pigs, showing that they have been preparing for their work for a long time, and they are unwilling to trust entirely to information supplied by the Chinese. They are hard to get rid of. These insects, as soon as they obtain information, cross the river into Chinese territory, where they use the telegraph. Some of them have been caught, but the majority wander among the troops and nothing can be done to prevent it."

A Chinese spy who was caught several days ago was sent to Liao Yang, where he was shot. The Chinese manifested deep sympathy, following him along the streets after he has been captured.

This notification does not involve a protest against Russia's course; it simply reserves whatever rights may exist in regard to the yet undetermined question of the use of the wireless telegraphy in time of war.

United States Commercial Agent Greener at Vladivostok has been instructed through Ambassador McCormick to inform the Japanese Consul at the Island of Saghalien that a vessel will be sent to the island to take back to Japan the consulate staff and the refugees. The arrangements for sending the ship have been made by Japan through the authorities at Washington. Grand Duke Cyril, who was injured at the Petropavlovsk, is protesting against returning to Russia. He desires, as soon as he has recovered, to go back to Port Arthur, but his mother, the Grand Duchess Vladimir, is insisting on his return.

SIGNING WITH BLOOD.

JAPS EAGER TO VOLUNTEER.

(BY THE ASSOCIATED PRESS—A.M.)

TOKIO, April 21, 4 p.m.—[By Atlantic Cable.] The War Office here is flooded with thousands of applications from Japanese of all ages and every condition of life for permission to go to the front and fight. These applications are from time-expired soldiers, as well as from young boys, and the ages of the applicants range from 14 to 70 years. They are following the Samuri custom and sign their applications with their own blood, and several applications, written entirely in the blood of the would-be fighters, have been received. None of these volunteers has been accepted as yet.

The War Department officials here are much gratified at this evidence of the desire of the people to assist in the war. The applications have been filed away, and if volunteers are needed, these applicants will be given the first opportunity to go to the front. The officials believe that the country would find it easy to obtain a million volunteers.

DISASTER DUE TO MINES.

ALEXIEFF SETTLES QUESTION.

(BY THE ASSOCIATED PRESS—P.M.)

ST. PETERSBURG, April 22.—[By Atlantic Cable.] All doubt as to the cause of the destruction of the battleship Petropavlovsk and the damage to the battleship Pobieda at Port Arthur is dissipated by the report submitted by telegraph to the Emperor April 21. In it Viceroy Alexieff stated in a way that leaves the matter no longer an open question that mines were responsible for the disaster. The admission of the presence of Japanese ships off Port Arthur, the night preceding the going-out of the Russian ships, which were watched by Admiral Makaroff, tends to establish Vice-Admiral Togo's claim that his ships hid mines on which the Russian battleships struck.

The Viceroy's report was sent only after a thorough investigation ordered by the Emperor had been made. It was published this morning through the War Commission. It explicitly states that "under the starboard side of the Petropavlovsk there was an explosion" and specifically states that a mine exploded under the port side of the Pobieda and did not run on their own mines as is often said by the failure of the Viceroy to mention anything of the kind and by the positive statement of the Port Admiralty that Admiral Makaroff was familiar with the location of the torpedoes defending the port. The Russian officials also fail to understand the surprising blunder caused by the mistake of the Russian torpedo-boat destroyers in taking the Japanese torpedo boats for a Russian flotilla, which resulted in the loss of the Strashni.

NAVAL TRANSFER.

(BY THE ASSOCIATED PRESS—P.M.)

PARIS, April 22.—The Echo de Paris this morning publishes the following dispatch from St. Petersburg correspondent:

"Vice-Admiral Skrydloff will not leave for the Far East before Wednesday next, remaining here to attend the council of admirals, summoned by High Admiral Alexieff, which will be under the presidency of the Emperor. I am informed by an admiral that Vice-Admiral Chouklin will probably be appointed to the command of the Baltic fleet, that Rear-Admiral Rojstvensky will succeed Vice-Admiral Skrydloff in command of the Black Sea fleet, and that Vice-Admiral Bezoibronoff will go to Port Arthur, where he will be in command under Vice-Admiral Skrydloff."

A press dispatch from St. Petersburg yesterday stated that it was believed there that the Russian Minister to Turkey and Gen. Williams, the general representative of the Cramps, were negotiating at Constantinople for the purchase of several ships by Russia. A dispatch today from Constantinople says that the Russian Minister is pressing the Sultan for an immediate payment of claims growing out of the war of 1877 and for outrages on Russians since then.

## HOMES ROUND TOO LATE.

*An Idol of the Turf Affected by Cold.*

## SCHOOL ART EXHIBIT.

*Fine Display of Pinned Pictures Washington-street Building.*

*tracts Much Attention.*

A highly successful art exhibit is in progress at the Washington-street school two days and will continue, today. The large building has been artistically decorated in all the season's latest styles, with great jars of dried ferns and palms covering the school. The walls are fine examples of incised and etched and sepia prints of the scenes, with a wealth of oil pieces, some very valuable, and a few water colors that are genuine. Handmade hanging shelves were made by the school support structures and the "Winged Victory" commanding situation at one end.

Yesterday afternoon a delightful programme of music and song was given by students of the school, while prominent members of the Study Circle of the school, the teachers, received the general throng in the rooms occupied by the "Winged Victory" commanding situation at one end.

The exhibit, which is to be open for the benefit of the school under the auspices of the Study Circle and the teachers, is to be held at the school during the month of May.

*Hermis, Idol of the Turf.*—One of the most popular idols of the turf was Hermis, idol of the turf two days and still regarded by many as Waterboy and McChesney go to the post in a big way, sang several songs to the cafés here until his song got out, and who who was the best? They fought at catch weights, Bolen being much heavier than Gans. Gans stood Bolen four times during the bout, and the latter on each occasion took the count.

*McVEY-JOHNSON.*

*HEAVIES MEET AGAIN.*

Local fight fans who saw Jack Johnson pummel Sam McVeay into jelly on two occasions are somewhat surprised that the San Francisco promoters had nerve enough to bring the pair together again, and are still more jarred by the arguments being advanced up north that McVeay has a chance. The pair are to clash again tonight in San Francisco, and on dope it is another of the most exciting fights for which the Bay City has been becoming famous lately.

Johnson beat McVeay decisively twice and should repeat at pleasure. The "Heavies" say they will not let Johnson's second and former manager, a capable ring general, will not be behind him this time. It sometimes makes a difference whether a long head or a pin head is in a pugilist's corner.

Johnson used to say McVeay was made to his order, and every time they fought Jack made good his assertion. The man will be here tonight for the championship of Senegambia and 66 per cent of the gate receipts.

Johnson ought to be a 10-to-6 favorite; if he should lose there will be good grounds for questioning the integrity of the battle.

*KNOCK FOR HEARS.*

Lane Rais at Personal Victory over Delegates.

Franklin K. Lane, former Governor of California, and a member of San Francisco, has been pledged or instructed to attend National conventions.

Disclaiming any personal interest in the Hearst-undertaken convention, he said in reply to the question, "Are you going to the convention?" he said, "I am not going to the convention, but I am going to the delegation to Hearst, says things."

"The object in holding the convention is not to please nor gratify the ambition of an individual, but to select a leader who will probably lead in the campaign and be a leader of the party and an honor to the delegation," he said.

New Hotel System.

The time-honored hotel system has been superseded in one of Philadelphia's largest hosteries by a few simple improvements a few days ago.

The Philadelphia Ledger reported that the clerks at the hotel have been busy explaining the new system to visitors, who have shown some interest in it.

The body was taken to the undertaking parlors of Garrett & Co. There was nothing unusual about the person of Anderson, or his belongings to indicate that he came from or to his wife may be. BANK CLEARINGS. Bank clearings  
yesterday were \$106,249.75, against \$902,  
for the corresponding day in 1903.PHILADELPHIA'S EASY MONEY.  
The cause for the abnormal ease in  
the Philadelphia market is pointedly  
brought out by this week's returns sub-  
mitted in answer to the call of the  
Comptroller of the Currency. Briefly,  
these show that while loans are ap-  
proximately on a level with those at  
the time of the preceding call was made  
in January, yet deposits in nearly ev-  
ery institution have increased, show-  
ing the demand for accommodation has  
not kept pace with the augmentation  
in the supply. Singularly enough ev-  
ery one of the large banks reports  
an increase in surpluses and profits in  
the practically stationary loan ac-  
count. The Fourth street added over  
\$1,000,000. The aggregate increase  
of their figures, reaches over \$450,-  
000. This will bring the total surplus  
of undivided profit account to about  
\$600,000, or the largest ever recorded  
in the history of the Clearing House.—SALAL-BOND CORRECTION. After  
the ratification of the Panama canal  
act, and when it seemed probable  
that construction work would soon  
begin, the fastidious legislation of the act  
which provided for the protection  
of the enterprise became appar-  
ent. The act authorized the issue from  
time to time of 2 per cent bonds at  
an amount not exceeding \$100,000,000.  
It is evident, however, that  
these bonds could have the ad-  
vantage of being pledged for bank  
circulation, as are the consols of  
1904 and that the notes issued against  
them were made taxable at the  
rate of only 1% of 1 per cent, per  
annum. It is also evident that  
such circulation would not be  
safe, in order to rectify this blun-  
der, an amendment was introduced pro-  
viding that the Panama canal con-  
struction issue shall be placed upon  
the same basis in all respects, as the  
consols, except for the additional  
protection given to the canal cir-  
culation. This amendment has  
been favorably reported by the Senate  
Committee, but this is only the first step toward perfecting  
the act and it may be some time  
before final action will be taken. Mean-  
while, it is plain that the new  
bonds are not available for preliminary  
work and construction need not be de-  
ferred by slow progress with the  
construction. But it would seem to be  
unsafe that the Panama bonds should  
be made available as a basis for note  
issue, for even if to be done doubt-  
fully, it would be a decided incen-  
tive to the extent that the new  
bonds were emitted, for they could  
readily be sold at a premium suffi-  
cient low to make them more attrac-  
tive to banks than are the 2 per cent  
notes.—Financier.ROCKS AND BONDS. The Los

Among the many features promised for the day by Co. M is the putting on of a military play at the Loring San Bernardino does not celebrate this year, so Riverside's chances of having a big crowd will be excellent.

**ORANGE GROWERS' BANK.** A government expert, connected with the Treasury Department, is expected here tomorrow to hurry along the Orange Growers' Bank matter. The bank has been unable to settle all business had to be done with the Washington officials by correspondence. The coming of the emissary tomorrow will expedite affairs very much.

### I DYLWILD HOTEL TO BE REBUILT.

### THE FAMOUS MOUNTAIN RESORT WILL NOT BE CLOSED.

Many New Cottages, as Well as New Hostelry, Will be ERECTED. Manager Lowe Came Very Near Perishing in the Flames—Heavy Property Loss.

**Hemet.** April 21.—The destruction of the main building at Idylwild will not mean the closing of that place as a summer resort, but, on the contrary, it will be followed by the building of many new cottages and another general building. The latter will be a hotel for the accommodation of persons who desire to remain in beautiful Strawberry Valley only for a day or two. These new cottages, however, will have their choice between living at the new hotel or being accommodated in one of the many pretty cottages which will be scattered through the natural park.

Just what the style of the building which will replace the burned structure will be has not been determined and will not be until the insurance companies have adjusted the loss. As soon as this has been done work on the new building will be commenced and every effort will be made to have it ready for occupancy before the close of the summer season.

The burning of the big building will be only a temporary inconvenience to the Los Angeles company which owns the resort. In the other buildings which were not destroyed by the fire there is room for scores of visitors. The old hotel, known as "The Lodge," is available, and there are a number of new cottages, some of which have been occupied all winter. A representative of the company went to Idylwild today to investigate the cause of the fire, make a survey of the existing conditions and to report his findings to the officers of the corporation in Los Angeles.

Manager Lowe, who has had charge of the resort since it was opened, narrowly escaped death in the fire. He came out of the flames unscathed, and he and a man named Lewis were the only persons in the building, the guests and workers being quartered in the cottages. Lowe was awakened by the smoke and heat, and ran barefooted to seize his clothing and rush out of the burning building.

The fire originated in a small room on the second floor and probably spread from the roof before the flames got out. Once the terrific gale which was then blowing reached the flames, no human agency could save the building. The place was equipped throughout with a large number of hose and fire extinguishers, but there was no possibility of using any of these appliances. Within an hour the big building was in ruins, not an upright stick of timber remaining. Practically nothing was saved from the building.

A careful survey of the losses indicates that the estimate of the loss published in the Times yesterday was not too high; in fact, the loss may be greater than first reported.

No date for the execution has been fixed. Antony maintained his usual remarkable coolness throughout the proceeding, smiling in the judge's face as he heard the dread words pronounced. He will be taken to San Quentin within ten days.

### THROWN OUT OF COURT.

The Morey contest came to a sudden ending this afternoon, Judge Conkling throwing the case out of court to justify the admission of insufficient evidence to sustain a jury. ### MICHAEL DIVORCE CASE.

Another phase of the McDavid divorce case was called yesterday on motion for alimony, the defendant filed an affidavit declaring that his marriage to the plaintiff was invalid, for the reason that at the time the ceremony was performed she was still the lawful wife of another man. This affidavit cast doubt into the belief that a divorce had been obtained.

In support of this allegation two affidavits from a master in chancery in New Jersey were filed, but these latter were not properly certified and the court directed that they be given to the defendant time to have the proper certifications made.

Should these be returned with the proper seal of court, the proceedings brought by the wife, Edna May McDavid, will have no standing before the court other than the complaint for divorce or the motion for alimony.

The work of the investigators here will be largely confined to questions of the distribution, depth and composition of underground water supply, matters which will be determined from a systematic study of data collected by the government, and the results will be published in a report.

The investigation will be conducted by various prominent men. The Mayor was to have delivered an address, but was called away from the city by the death of a relative. Miss Lang, principal of the Jefferson-street school, introduced Mr. Fossey as the first speaker. Mr. Fossey, a friend of the parents, congratulated the parents of that section upon the acquisition of well-planned and perfect a schoolhouse to house their children during school hours.

He stated that in this day and generation the school was built for the children and he felt sure that if he had been privileged to attend school in such a building he would not have been compelled to frequently frequent the desks as he did upon those in the little schoolhouse where he received his early instruction. This same little schoolhouse he referred to as having been built in three sides of the Santa Ana-street school has every room lighted so as to preserve the eyes of the rising generation.
